BE GUIDED BY THE MARINE BIOLOGIST

By taking a personal guided tour with a marine biologist, your explorations of the reef will be so much richer. Learn all about the different species that live in the waters around us, including the friendly, photogenic wild Hawksbill turtles that will swim alongside you. Turtle Point, Shark Point and, during the season, Manta Point are all part of the tour. Each gives you a fascinating insight into some of the sea's most ancient and mysterious creatures. TAKE THE BIRD'S EYE VIEW

From above, the Maldivian islands appear as jewels adorning aquamarine silk. Most display a heart of lush green outlined by pure white sand outside which the pale greens of lagoons and reefs blend out into the Indian Ocean. Taking a private chartered seaplane tour from the resort around the islands and back again is nothing short of breathtaking. From this perspective, the geography and majesty of the Maldives are at their most luminous.
